## **BEST AVAILABLE IMAGES**

Defective images within this document are accurate representations of the original documents submitted by the applicant.

Defects in the images may include (but are not limited to):

- BLACK BORDERS
- TEXT CUT OFF AT TOP, BOTTOM OR SIDES
- FADED TEXT
- ILLEGIBLE TEXT
- SKEWED/SLANTED IMAGES
- COLORED PHOTOS
- BLACK OR VERY BLACK AND WHITE DARK PHOTOS
- GRAY SCALE DOCUMENTS

**IMAGES ARE BEST AVAILABLE COPY.**

As rescanning documents *will not* correct images,  
please do not report the images to the  
Image Problem Mailbox.

Figure 1 consists of 14 subplots, labeled (a) through (n), each showing the effect of a different parameter on the maximum value of the function. The subplots are arranged in a grid. Each subplot has a horizontal axis representing the parameter and a vertical axis representing the maximum value of the function. The curves in each subplot show a peak, and the peak value is labeled with a number. The subplots are: (a) Effect of  $\alpha$  on the maximum value of the function. (b) Effect of  $\beta$  on the maximum value of the function. (c) Effect of  $\gamma$  on the maximum value of the function. (d) Effect of  $\delta$  on the maximum value of the function. (e) Effect of  $\epsilon$  on the maximum value of the function. (f) Effect of  $\zeta$  on the maximum value of the function. (g) Effect of  $\eta$  on the maximum value of the function. (h) Effect of  $\theta$  on the maximum value of the function. (i) Effect of  $\phi$  on the maximum value of the function. (j) Effect of  $\chi$  on the maximum value of the function. (k) Effect of  $\psi$  on the maximum value of the function. (l) Effect of  $\omega$  on the maximum value of the function. (m) Effect of  $\kappa$  on the maximum value of the function. (n) Effect of  $\lambda$  on the maximum value of the function.
